Level 3 Communications IP Gateway London 2, UK

Level 3 (Nasdaq:LVLTL) is a global communications and information services company offering a wide selection of IP-based services including broadband transport, colocation services, submarine transmission services, and the industry's first Softswitch-based services. Currie & Brown advised on the conversion of a derelict 5-storey gin distillery into a state-of-the-art Network Service Centre (Telecommunications/IP (Internet Protocol) Gateway & Co-location Facility) comprising 280,000 sq ft of accommodation, including 65,000 sq ft of new-build.

Project value: £75m

Appointed by: Level (3) Communications Ltd

Cable Landing Station, UK and France

Currie & Brown advised FLAG Atlantic on the development of a cable landing station to facilitate the laying of a trans-Atlantic fibre optic cable.

Project value: Confidential

Appointed by: FLAG Atlantic UK Ltd

Silicon Chip Manufacturing Plant

Currie & Brown has advised a major international silicon chip manufacturer on the construction of a number of assembly and test facilities in the Philippines, Costa Rica, USA, Singapore and Israel.

Project value: numerous

Appointed by: Confidential

Ionica Telecommunications Network

Currie & Brown provided acquisition, design and construction management of the base station network to serve Ionica's new technology. The initial phases relied heavily on Currie & Brown's expertise and ability to acquire and construct sites to stringent design and program parameters in order to protect the resilience of the network and achieve Ionica's desired reliability factor in excess of 99%. Over 300 sites were acquired and designed. Over 250 sites were constructed.

Project value: £100m

Appointed by: Ionica
